Coen Business Cards are Good for Business

Use the card at the pump or in the store with a User ID/PIN that you set for the card.

The price instantly rolls back to the discounted price. Additional discounts may apply based on monthly volume.

Manage the types of products a driver can purchase. Restrict purchases to fuel-only, or fuel and in-store items. You can also set a credit limit on each card.

Simple, Clear Accounting

Each time a card is used, you will receive an email detailing the transaction. This is a great way to track purchases for your fleet.

Detailed reporting is available through the business portal in real time. Reduce paperwork and make reconciliation painless.

INSTANT SAVINGS ON FUEL!

Is it Secure? You Bet!

We have contracted with ZipLine (NPCA) to process transactions. They operate under the rules and regulations of the Federal Reserve's Automated Clearing House.

A User ID/PIN is required to be entered on each purchase.

The card can only be used at Coen businesses.

Safer than a credit card

Enrollment is performed on a secure website; information is protected in a secure data center.

Coen Business cards are more secure than writing a check and even safer than using a credit card. And more secure than any manual house account.

It's Our Way of Rewarding Our Valued Customers

You save on every gallon every time you use your Coen Business card to purchase gasoline, diesel or kerosene. You control all of the cards in your program.

Why use our business card?

SAVE UP TO 10¢*
PER GAL

- Save money on every gallon purchased, with instant price roll-back.
- Receipts are emailed for each transaction.
- There are no annual fees, this is not a credit card. Enrolling does not impact your credit score.
- You choose what types of purchases a driver can make, based on your needs.
- A real-time business portal allows you to manage the drivers, view their transactions and set spending limits.
- The Coen Business card can accommodate any sized fleet or type of company vehicle.
